**PARK STREET ROUNDABOUT IMPROVEMENTS
NOTICE OF ROAD CONSTRUCTION**

On Friday May 21, 2021 construction crews will be completing extensive basecoat paving work in and around the Park Street Roundabout. During this day traffic patterns will be variable and motorists should expect delays.

Beginning on/about Monday May 24, 2021 we currently anticipate motorists will be permanently using the new roundabout. Temporary signage and temporary road striping will direct motorists into the roundabout. Please use caution navigating the new traffic pattern.

Please note that the intersection will not be fully functionable and delays and slow speeds are advised until the final paving, final line striping, and, lighting are installed this summer.

Maps and information about the road plans and up to date construction schedules can go to:
