EASTHAMPTON HEALTH DEPARTMENT HOSTING COVID-19 BOOSTER CLINIC

Easthampton, MA - The Easthampton Health Department is hosting a COVID-19 booster clinic on Wednesday, November 30, 2022, from 4 PM – 7 PM at Mountain View School located at 200 Park St. Pfizer (ages 5+) and Moderna (ages 6+) will be available. Pre-registration is required. To sign up, please visit: <https://home.color.com/vaccine/register/northampton> and select “COVID 2022 Easthampton Mountain View School.” Please note that choosing both the Flu and COVID-19 vaccine options while registering will show no available appointments. The Flu vaccine will not be available at this clinic. Appointments are limited and are expected to fill up.

“This is a great opportunity to receive the bivalent booster dose before heading into winter and the holiday season,” says Bri Dupras, Health Director. The updated bivalent boosters are called “bivalent” because they protect against both the original virus that causes COVID-19 and the Omicron variant BA.4 and BA.5.

Please contact the Easthampton Health Department at (413) 529-1400 ext. 430 if you have questions or need assistance signing up. This clinic is being supported by the Southampton Board of Health and the Northampton Department of Health and Human Services.
