Dear Chairperson,

Thank you for letting me speak at the November 30th City Council Ordinance Subcommittee Meeting. I am trying to sell my properties due to my life threatening heart issues while doing the best for the Groveland neighborhood and Easthampton. My father had a great legacy in this area creating a business of 80 years and our family being a Groveland homeowner for over 30 years. I would like to honor and continue this legacy in this sale of my properties while I still can.

In the meeting I requested 40r overlay zoning for my 7 Groveland St. residential property and rezoning it to HB to do so or possible lot line adjustment. I request that this item be withdrawn from consideration without prejudice. Please cancel the 12/11 site visit.

Again, thank you so much for allowing me to address my intent at the public ordinance meeting.

Keith Cernak
